1. With the connected computer logged in, turn on the LG monitor and push the INPUT button.

2. Keep pushing the INPUT button until HDMI2 is highlighted.

3. On the computer's desktop window, right click and select screen resolution from the pop-up box.

4. On the computer screen resolution page select ‘LG TV’ under Display, then select ‘1920x1080’ under resolution. Finally select ‘Duplicate these displays’ under multiple displays.
